

ENVIRONMENTAL POLICY STATEMENT

Summary

Graffiti busters Ltd recognises that its operations have the potential to cause negative impacts on the environment. Thus, we strive to ensure that our use of natural resources is positively managed across all aspects of service delivery. We instil this attitude by making informed choices with regard to the suppliers, sub-contractors and customers we work with.

Our environmental strategy is devised in accordance with DEFRA guidance notes and conversion factors. Wherever appropriate, an open book policy is adopted on the disclosure of our environmental performance.

Objectives

Acknowledging, the environmental challenges that we are faced with today its important that Graffiti Busters keep abreast of its sustainability goals by clearly defining its objectives and targets.

- Our approach to environmental performance is deployed by the board of directors and monitored through the development and achievement of our business strategy;
- Our work systems are designed to prevent pollution of the environment and procedures are in place to deal with any accidents;
- We comply with all relevant legislation to each clients particular standards;
- Foster the ethical use of resources, plant and materials and where necessary minimise use and recycle or reuse waste where practicable;
- Promote a culture of environmental awareness and promote these principles into the workforce;
- Revise all chemicals, machinery and types of resources in use and encourage environmentally friendly alternatives;
- Use biodegradable products and containers where possible, reduce chemical use to the minimum, and ensure all substances are CFCs free;

By reviewing our operations transport fuel is our most negative environmental impact. As a result, we are putting measures in place to reduce fuel consumption levels. This will be achieved through carefully monitored route

planning and the installation of tracking software and GPS technology, accompanied by more effective purchasing methods.

GB Ltd recognises its legal responsibilities under the Environmental Protection Act 1990 and its associated underpinning regulations. The Managing Director is responsible for the implementation of the environmental policy. This policy shall be briefed to the workforce and made available to the public. This policy will be implemented on all sites and office complexes.

This policy and all related policies, programmes and KPIs are reviewed annually, or whenever legislative changes are made.
